

Important Info for Exhibitors Who Are Camping!!!

Spaces with 30-amp electrical service and limited water are available for \$30/night with a 10:00a.m. checkout. There are also 37 spaces with 50 amp service and water for \$60/night. **The camping areas will be available to trade show exhibitors beginning on Monday, November 7th.** There is no advance registration; spaces are first-come, first-served. Please note: checks will no longer be accepted for camping or parking.

WHERE TO CAMP: Trade show exhibitors may camp in either of two camping areas at the Eastern States Exposition: The Exhibitor Camping area to the east of the Better Living Center or the Mallary Camping area on the south and east sides of the Mallary Complex. The two camping areas are within the event perimeter that will be secured during event hours. ***Exhibitors who may need to move their rigs at any time during the event are encouraged to use the Exhibitor Camping area to the east of the Better Living Center and travel through Gate P to enter and Gate E to exit the event.*** It will be very challenging to camp in the Mallary Camping area and exit and re-enter the grounds via Gate 10 on event days because of the high volume of horse exhibitor/participant traffic that will be managed through this gate. Any camper that exits via Gate 10 during the event will exit to the left (eastbound) and leave the grounds via Gate 9. Campers returning to the Mallary Camping area will have to re-enter the grounds at Gate 1 and proceed to Gate 10 to enter the event and access the camping area.
